

Path Markings and Locator System

Welcome to Exton Park. West Whiteland has mowed some simple paths for our residents and guests. A map is provided to give you an overview of the mowed paths available, which areas allow dogs and bikes, and to inform you of the special place that Exton Park is to all the residents of West Whiteland Township. Please be courteous and careful.

The paths are marked with signage and numbers. If you should need assistance (medical/police emergency) please call 911 and give the representative the locator number you are closest too and the color of the path you have traveled on. For example: I am on the Red Path near #1. If you should have any questions concerning the paths or locator system please call the Parks Dept. at 610 363-9525.
